

CHOCOLATE

«Wide range of movement CHOCOLATE can be adjusted without stooping. Your feet feel liberated. »

ERGONOMIC

Prevents musculoskeletal disorders

The daily use of the CHOCOLATE footrest prevents muscle and back pain associated with poor posture. Designed in partnership with the 'The Industrial medicine', it enables better resting lower leg position.

FUNCTIONAL

Adapts to all body types.

CHOCOLATE features adjustable inclination (0 to 25 °) and in height (10 to 16cm). Any adjustment required is made with the feet without effort, adapting to all morphologies.

MOVEMENT

Flip for total freedom of the feet

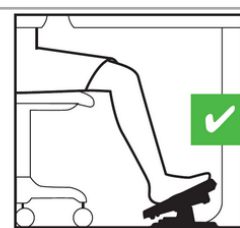

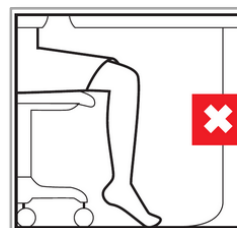

CHOCOLATE allows a rocking movement that ensures good blood circulation. Its tray is equipped with a non-slip support surface that holds the feet in place naturally. Pads located below the structure ensure product stability once placed on the floor, regardless of the surface of the room.

Quick adjustment with feet:
